SUMMARY

Full Stack Web Developer with extensive experience in Information Technology working with clients at all levels of the organization to ascertain client needs and create appropriate technical solutions. Functioned as a webmaster in support of various personal and self-employment business endeavors for over 10 years mostly on a WordPress platform using HTML, CSS, Javascript, PHP, and MySQL to create and customize websites. Completed a 24 week Coding Bootcamp at the University of Richmond to enhance skills as a fullstack developer including the recent successful deployment of both a collaborative and a solo MERN stack project. Reliable and organized with excellent verbal and written communication skills. A self-starter with a track record of being a team leader, solving complex problems, and doing what is necessary to get the job done. A persistent and patient problem solver. Always learning.

EXPERIENCE

</div>

Teaching Assistant   2022 – Present
2U/Trilogy Education, Remote
Support Full-Stack Web Development Boot Camp students during class and office hours. Guide and encourage students' in-class activities as well as their async work, challenges, and projects.   Support the instructor with class management tasks.

Web Developer   2019 – Present
Central Virginia Intergroup of Overeaters Anonymous, Richmond, VA
Work with leadership on a volunteer basis to translate the organization mission to reach those suffering from eating disorders into information technology solutions serving the community of Overeater Anonymous members in the Central Virginia region.
Key Accomplishments:
- Design, create, and maintain the Intergroup's website: https://www.centralvaoa.org
- Support internal e-mail communication using MailChimp
- Used WordPress, Google Analytics, HTML, and CSS to create and maintain the site,

Proprietor/Web Developer   2010 – 2022
Mark Elliott Crafts (Self-employed), Mechanicsville, VA
Created traditional crafts serving those collectors, reenactors, and sportsmen with an interest in American history and longrifle culture. Also worked as a photographer specializing in product and virtual reality photography. Used technology as a primary means to market Mark Elliott's unique crafts and photography work mostly on a bespoke basis. Nearly all revenue came through the web presence.
Key Accomplishments:
- Received several ribbons for distinguished work on the American longrifle at Dixon's Gunmakers Fair, including a Best of Class ribbon in 2016
- Leather and horn work was recognized in Early American Life magazine
- Photography has been published in American Tradition magazine
- Designed, created, and maintained several websites over the years serving Mark Elliott's various business interests: https://www.markelliottva.com
- Provided all the photography for the websites
- Used WordPress, Elementor, Yoast, Google Analytics, HTML, CSS, JavaScript, PHP, MySQL, PhpMyAdmin, Adobe Lightroom, and Adobe Photoshop to create and maintain the websites over the years
